

Conceptual planning for Zhejiang resort

Ordering party : Company A
Location : Zhejiang, Ningbo, China
Site area : About 150 ha
Services : Conceptual planning
Time of plan : 2009

In this project, we provided the development planning for Zhejiang resort, located on the oceanfront slope land on the south of Ningbo City.

This resort complex is comprised of the middle/high and super-rich facilities to satisfy a wide variety of demands of potential visitors from Ningbo and Shanghai.

A shopping center, spa, conference hall and hotels are arranged on the flat area bordering the two beaches, and middle-class villas on the slope area.

Based on the image of the Jiangnan district, we arranged a sophisticated villa-type first-class hotel and villas with a view of the sea on the slope land in rich nature.
