

Development planning for the area around Shizuoka Station

Shizuoka Station - "Ekipa"

Fureai Park - "Shizu-machi"

Fureai Park - "Shizu-machi"

Station plaza on the north side of Shizuoka Station

Renewal of underground passage

Underground parking lot in front of Shizuoka Station - "Ekipa"

Parking lot in front of Shizuoka Station- "Ekipa"

The parking lot with the parking capacity of 400 cars (200 for Ministry of Land, Infrastructure, Transport and Tourism, 200 for Shizuoka City) was planned to be built in front of Shizuoka Station to:

- (1)Smooth motor vehicle traffic,
- (2)Prevent car accidents,
- (3)Effectively utilize the land.

Station plaza on the north side of Shizuoka Station

Although Shizuoka Station is used by about 130,000 people a day, the cross-points of the station plaza was very confusing and people frequently got lost on the underground passage. To improve this inconvenience, we provided planning and design services for the station plaza expansion and the cross-point improvement.

Renewal project for the area in front of Shizuoka Station

In a joint workshop of citizens and the administrative agency, Fureai Park "Shizu-machi" and the underground passage located on the north side of Shizuoka Station were planned to be renewed, with an aim to offer a meeting place where attracts community residents and visitors.

Master concept for a traffic barrier free area around Shizuoka Station

To build the roads where all people can enjoy walking in a safe environment, we prepared the master concept for a traffic barrier free area around Shizuoka Station.
