- B2F-Metro concourse and platform, Commercial facilities, Pathway, Underground road and utility tunnel
- B3F-Underground car parking lot

Time of service : Jan. ~ Dec. 2010

The project is detailed planning for the central urban area of Vientiane Province which is located 70km north of Vientiane Capital.

In this plan, administrative facilities are gathered in one place while a variety of functions such as commercial and business facilities are scattered effectively, aiming to create a functional and lively city.

The project site is hilly area surrounded by the river, mountains and forests, and "Vientiane Hills" is the concept of our plan that was made to conserve these topographic characteristics of the site. The provincial office is laid out on the hill as a landmark overlooking the park and green space on the low land, which provides symbolic landscape with abundant nature.
