Nong Ping Area, 5km northwest of central Vientiane, has an area of 1,935ha and is located next to Wattay International Airport.

With a concept of "Intelligent Lotus City as a subcenter of the Vientiane Capital" , facilities are arranged including administrative offices, commercial facilities, government offices, culture facilities, research institutes and residences. Water and green network is developed with a pond called "Oasis" , located at the center as a reservoir.

Three landmarks of the city: a Grand Temple, government offices and high-rise buildings are located in alignment, which makes the symbolic landscape axis of the area.
