

## Queen' s Square Yokohama – Minato-Mirai Station

**Ordering party** : Yokohama Minato-Mirai Railway Company

**Location** : Yokohama City, Kanagawa Prefecture

**Project Summary** :

- Minato-Mirai station house
- 3 layers with 3-span
- Length : 430m

**Services** : Structural design for Minato-Mirai station house, Design for underground part in MM24 core city

**Time of plan** : June 1997

Minato-Mirai station on the Minato-Mirai line (opened in Feb., 2004), which connects Yokohama Station to the Moto-machi, is located at the 4th basement in the Core City - typical building in MM24 district; its platform are connected to the private building.

Grand atrium was designed to connect subway platform to aboveground floor, creating a comfortable space where people can know where they are. To reduce train noise and vibration, the floating slab structure was adopted.
