- Area for station plaza : 1.5ha
- Total floor area : 3,334m<sup>2</sup>
- Bicycles:1,346
- Mini-bike:202
- Motorcycle:123
- Pedestrian deck

**Services :** Basic design, Execution design

**Time of plan:**

- Underground bicycle parking lot : Mar. 2002
- Station plaza / Deck : Jul. 2004

To create a symbolic landscape appropriate as a new entrance of Sendai City, we set the basic concept - "Mori no Hiroba" based on the citizen' s opinions. Natural materials such as woods and stones and curve-based design add natural scenic beauty to the plaza.

The underground bicycle parking was equipped with the top lights and a glass ceiling to offer human friendly, open and clean environment that would attract people.
